TRAINING, EXPERIENCE AND PRECEPTOR ATTESTATION STATEMENT – C (Unsealed Radioactive Material Requiring Written Directive)

The Virginia Department of Health (VDH) is requesting disclosure of all information on this statement for the purpose of authorizing an individual to work with radioactive material. Failure to provide any information may result in denial or delay of authorizing an individual to work with radioactive material.

Instructions: Complete all applicable items. Refer to VAREG "Guidance for Medical Use of Radioactive Material." Use supplementary sheets where necessary. Retain one copy and submit original of the document to the Virginia Department of Health, Radioactive Materials Program, 109 Governor Street, Room 730, Richmond, VA 23219.

Note: This form does not need to be completed when using Board Certification to meet 12VAC5-481, Part VII, training and experience requirements. Board certifications recognized by the NRC can be found at the following website: https://www.nrc.gov/materials/miau/med-use-toolkit/spec-board-cert.html

State Licensure

A copy of license to practice medicine in Virginia is attached

12VAC5-481-1950 Use of unsealed radioactive material for which a written directive is required			
OR 12VAC5-481-1950 Oral administration of sodium iodide I-131 requiring a written directive in quantities less than or equal to 1.22 Gigabecquerels (33 millicuries)			
(33 millicuries)	12VAC5-481-1950 Oral administration of sodium iodide I-131 requiring a written directive in quantities greater than 1.22 Gigabecquerels (33 millicuries) 12VAC5-481-1950 Parenteral administration of any beta emitter, or a photon- emitting radionuclide with a photon energy less than 150 keV,		
	directive is required	tting radionucide with	a photon energy less than 150 keV,
12VAC5-481-1950 Parenteral administra	ation of any other radionuclide, for which a	written directive is rec	quired
PART I TRAINING AND EXPI	ERIENCE		
Describe training and experience in sufficient	detail to match the training and experience	criteria in applicable 1	regulations.
1. Classroom and Laboratory Training.			
Description of Training	Location	Clock Hours	Dates of Training
Radiation Physics and Instrumentation			
Radiation Protection			
Mathematics Pertaining to Use and Measurement of Radioactivity			
Chemistry of Radioactive Material for Medical Use			
Radiation Biology

(Authorized User - Uncealed Written Directive)	

2. \$	Superv	rised	Wor	k Ex	perienc	ce
-------	--------	-------	-----	------	---------	----

Description of Experience	Dates and Clock Hours of Experience	
Ordering, receiving and unpacking radioactive materials and performing the related radiation surveys.		
Performing quality control procedures on instruments used to determine the activity of dosages and performing checks for proper operation of survey meters.		
Calculating, measuring and preparing patient or human research subject dosages.		
Using administrative controls to prevent a medical event involving the use of unsealed material.		
Using procedures to contain spilled radioactive material and using proper decontamination procedures.		
a. Supervising Individual – Identification and Qualification	ons	
	pervision of (if more than one supervising individual is needed to meet	
☐ 12VAC5-481-1980; ☐ 12VAC5-481-1990; ☐ 12VAC5-481-2000 ☐ 12VAC5-481-2001		
With experience administering dosages of:		
Oral NaI-131 requiring a written directive in quantities less than or equal to 1.22 Gigabecquerels (33 millicuries)		
Oral NaI-131 in quantities greater than 1.22 Gigabecquerels (33 millicuries)		
Parenteral administration of any beta emitter, or a photon- emitting radionuclide with a photon energy less than 150 keV, for which a written directive is required		
Parenteral administration of any other radionuclide, for which a written directive is required
